VOLUME II, NUMBER 48 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA, THE COUNTY SEAT PAPER OCTOBER 15, 1928

TWIN SISTER TO RESUME TUNNEL WORK AT ONCE

The coming week will see operations resumed at the Twin Sister mine at Snow Point with full vigor with the installing of an air compressor to make possible the use of machine drills in the No. 3 tunnel.

Work has been held up pending the installation of a compressor as the rock in the tunnel face had become so hard that hand drilling was laborious and too slow. Overhauling of the compressor is in progress at the Miners Foundry and will be completed in a few days. The tunnel is in over 750 feet with some 300 to go to attain its objective. The hard rock encountered in the tunnel shows indications of a ledge being quite near.

The crew is being reassembled and it is anticipated that work will continue through the winter and with macine drills in use the big tunnel, which will mean large time operations at this promising property, will soon be completed.

Water power is developed on the property, representing about 18 horsepower and with the diesel engine at the mill there will be no power shortage to run the compressor to capacity.

A small body of high grade ore was struck last week in a raise from the No. 2 tunnel and shows very high values.

President Ray O. Foster has been over from Ukiah superintending the resumption of operations at the property. He brought with him, J. Canevari of Ukiah, an expert mechanic, who will do the preliminary work of installing the machinery.

SUPERVISOR DAVE ROWE PASSED AWAY FRIDAY

Supervisor David S. Rowe while deer hunting Friday near Lowell Hill suffered an attack of heart failure and died before his companions found him. The suddenness of his demise was a distinct shock to the county where he had spent his entire life. The fnneral services are being held this afternoon from the Grass Valley Methodist church and the services at the grave will be under the auspices of the Odd Fellows.

The demise of Mr. Rowe takes one of Grass Valley's native sons. He was born there 52 years ago and was highly respected in the community where he had spent his entire life. He was elected supervisor from the second district at the August primary by a heavy majority to serve his third term. He had been engaged in business there for a number of years.

The pall bearers at the funeral will be R. A. Eddy, E. B. Dudley and Jos. Frank from the board of supervisors, Fred Munday and Geo. Clemo of the county road force, and members of the hunting party, and Bert George, a life long friend. The funeral arrangements have been in charge of W. R. Jefford and Son.

NORTH SAN JUAN CHURCH WILL BE REPAIRED

Further repairing and repainting of the Methodist church at North San Juan is to be inaugurated this week when a community dinner will be served either Wednesday or on Thursday night. Repairs costing $250 were made last summer including a new roof. Painting and general fixing up are contemplated this fall.

Word from the Sutter Hospital in Sacramento Saturday morning was to the effect that E. J. N. Ott, Jr. who was shot while hunting last week, was rapidly regaining his normal temperature and should improve rapidly from now on.

Mr. and Mrs. A. W. Patterson of Phoenix, Arizona, have arrived to spend the winter with their daughter, Mrs. Ward A. Johnson of Grass Valley.

Mrs. Brian Krough and little son of Sacramento are here for a several month's stay.

J. H. Lee of Sierra City attended the meeting of Elks Lodge which was held Friday evening.

MINING LOCATIONS ARE PLACED COUNTY RECORD

Fred DeWein has located two quartz claims in the Washington mining district the past week and placed the same on record.

HORSE SHOE PITCHING IS FOR SUCCESSFUL SEASON

The local horseshoe experts have survived the first week of the indoor lodge tournament, some having slipped a little from last year's top form, some holding up in good shape, and some having weathered their contests safely but still shivering from close calls.

The Native Son team in the first contest of the season nabbed two out of three games with the Odd Fellows, and Court Garfield's pitchers took the odd game of the series from their brother Foresters of Court Christoforo Columbo.

The games between the two Foresters lodges were easily the most interesting of the week's play. Some of the inexperienced players of Court Christoforo Columbo showed some sensational class in their throwing and opinions seemed to agree that it was only the experience of Court Garfield's pitchers that turned the tide toward them. Max Solaro and Baptiste Tocolini in their first tournament games turned in scores including six and five ringers respectively while Muscardini, Giani and Gregori each circled the peg twice. For Court Garfield, Cap. Tony Rore and Charles Sharp slipped across five ringers apiece, and Leonard and Foote each corraled two.

Cary Arbogast, whose Odd Fellow's team will meet the Christopher Columbo pitchers this coming week, apparently is not awed by the showing made by the new entrants. He pointed to the fact that Columbus Day occurred last week and that either the famous namesake of the Columbo pitchers was silently on the job or that the hurlers themselves were inspired by recollecting the valiant deeds of the great explorer.

Herb Hallett, captain of the Native Sons, however, said "I saw that bunch play, and in the last game, with the score 47 to 32 against them, they made a straight run of 16 points and mighty near cleaned up. Believe me, when we tackle that crew, my team is going to be in as good shape as 'Miss America', and loaded with a full head of steam for the race."

After hearing these opinions we thought we would ascertain Tony Rore's feelings about the new team. He said, "I almost had heart failure when I saw those boys throwing those ringers, and they had a lot of substitutes ready on the bench, too. You would think we were bush leaguers to see those fellows showing us how to pitch. It we could beat them, I am not much afraid of the Native Sons winning from us this year."

ISENSEES ENTERTAIN FACULTY PROFS

Principal and Mrs. Arthur F. Isensee entertained at dinner Thursday evening. the guests being the sixteen members of the high and grammar school faculties. Following dinner bridge was played, prize winners being Mrs. H. E. Kjorlie, Mr. W. A. Carlson, Mr. H. E. Kjorlie and Mrs. W. E. Young

Mrs. Phelan and daughter of San Juan were in our town last week. They brought a sample of beautiful red apples grown in their orchard. A picnic was held in their orchard recently when all enjoyed a delicious lunch and later gathered apples.

Miss Retha Downey of Smartville visited in Nevada City during the week.

Max Emory of North San Juan was arrested Saturday charged with killing a cow belonging to Henry Huckins.

Mrs. H. R. Sherwood and Mr. and Mrs. William Beatty of Fresno came up for the wedding of their sister, Miss Beth Downey, which took place this week, to Mrs. Russell Wilson.

J. J. Fortier, of the Security Bank & Trust Company of this city, made a business trip into Sierra county recently.

GENERAL MINING SITUATION NEVADA COUNTY LOOKING UP IN FINE SHAPE

A general survey of the gold mining situation in Nevada county shows the industry to be reestablishing itself in wonderful shape and the coming year should see some of the old time prosperity evident again after a long lapse of time dating back to war time days. New stamp mills are getting ready for operations at different points and many hundred men are now engaged in development work on various properties once operated, and on promising prospects. With over 200 stamps dropping in this district already and more lining up to get going, Nevada county offers the livest gold mining camp in California today and the coming year will show much activity.

New capital is coming in seeking properties and there is an active demand for properties somewhat developed and with sufficient equipment to get under way on terms that will offer protection to capital as well as the owners. The property owner today who demands an exhorbitant price for his property, wants excessive cash payment and numerous restrictions will be out of luck Bonding and leasing with purchase option is the approved fashion in taking over properties and with terms providing for continuous development the mine owner is taking no unusual chances.

Idaho Maryland Looks To Be Big Producer

The development of the big strike made on the Idaho Maryland the past year and opened up already for a distance of 500 feet on the 1900 level, indicates clearly that there is a large mineral zone in this famous property that is virgin territory and blasts the old fallacy that the early day miner bled all the ore of the properties. Plans for enlarging the milling facilities are under way and the opening up of the Brunswick shaft for the central operations of the company is expected for the coming year.

The leasers working in this property on one block of ground are milling ore that is running in excess of $14 per ton mill run.

With the repairs to the headframe and the shaft collar completed and the shaft retimbered to the 1000 level, underground work is being resumed and the work on the 1900 will be prosecuted with vigor

Boundary and Golden Center In a Possible Merger

With the Boundary mine interests taking a lease on the Golden Center and the possibility of opening up this property through the Peabody workings should make a new era in the Grass Valley district which looks to be in for greatly enlarged activity. The Boundary interests have developed a real producer in the Brock property and have shown production during the past year. The mill was increased to ten stamps and new pumping facilities installed. The Golden Center during its comparatively brief existence showed good production.

Murchie Strike Shows Good Milling Ore

The strike made on the Murchie property the past few weeks on the 1000 level is continuing exceptionally well as drifting continues on the shoot. Values on the plates in the 20 stamp mill have stepped up lively with the milling of the new ore. Development work is keeping well ahead of the extraction and as soon as the water can be handled satisfactorily on the 1150 drifting operations will be resumed on that level. The mill is pounding steadily along.

North Star Sinking Winze Below 8650

A winze on the recent ore shoot picked up is being sunk below the 3650 level at the North Star and will be sunk 100 feet to determine the extent of the shoot.

Mohawk Cuts Shaft Through Old Drift

Work of cutting the timbering through the old drift encountered in the new shaft being sunk at the Mohawk property is proceeding slowly. The old workings are full of mud and muck which has made timbering difficult but it is not expected that the work will be long delayed. The tunnel was run at water level. The Cornish pumping rig will handle the small amount of water satisfactorily as soon as the drift has been passed.

Le Compton Mine Will Attempt Unwatering

The LeCompton mine which was filled up with water due to the NID will doubtless be pumped out again with the close of the irrigation season and the cessation of water in the ditch. It is expected that the canal will be concreted in the vicinity of the property to avoid future flooding problems.

Plans Progressing For The Hoge Operations

The work of getting the preliminaries out of the way for development of the extensive Hoge holdings on Harmony Ridge has been moving steadily along although somewhat slower than had been hoped for at the outset. Once under way should see this company the largest operator in the district.

Gaston Mine Waiting Ample Water Supply

Opening of large developments of the Gaston Ridge properties is waiting an ample water supply for operation of the Pelton wheels. The NID water supply through the North Bloomfield which was looked to handle power generation has not so far been satisfactory although a great deal of money was spent repairing and rebuilding the flumes and ditches the past fall.

The sawmill at the Gaston property is now running full blast to get out 100,000 feet of lumber for the winter mining operations. 22 men are now employed at this property.

Reliance Property Is Being Opened Up

The reliance properties near Graniteville on the Middle Yuba and formerly known as the Made to Order, will operate through the winter. A truck load of supplies and machinery was taken in Saturday ahead of the winter season. Both quartz and gravel are to be worked.

MRS. J. D. MORRIS, FRENCH CORRAL PASSES AWAY

Another of our worthy pioneers of the San Juan Ridge has passed to eternity. Mrs. J. D. Morris who has been a resident of the Ridge for nearly fifty years, was laid to rest in the family plot in the San Juan cemetery Friday.

Mrs. Morirs was a woman of many charming attributes of character and was dearly beloved by all who knew her, both old and young. She had been in poor health for nearly a year but death was hastened by an accident she received in falling and breaking a rib. Being nearly 87 years of age the chances of recovery were against her.

She had lived in Nevada county nearly all her life, coming here when but a child. Since her marriage to J. D. Morris in 1870 she had resided on the Ridge.

Fred W. Grover, a graduate of our local high school in 1925, has passed with high enough merits to be on the honor roll at University, of California. He is taking an engineering course.

Captain Joe Blaks and M. Henry Argall were among the candidates initiated into the Ben Ali Temple Mystic Shrine at the outdoor ceremonial held at the Auburn Country Club Saturday evening. There was a large crowd from all sections in attendance. A parade, concert and drill were held in Auburn during the afternoon. A buck stew was enjoyed after the ceremonial.

Mr. and Mrs. P. M. Toleman of North Columbia were in our city Thursday They expect to spend the winter here.

Mr. and Mrs. J. L. Huy have had as guests her brother, Benjamin R. Wilde of San Francisco, Misses Eleen Huy and Evelyn Finely and Charles Huy, all of Oakland.

Carroll Tredennick, who has been employed by the forest service, at Emigrant Gap is home.

Mr. and Mrs. William M. Gracey and son, Billy, and Mrs. M. Grimes motored to Oakland Wednesday and spent the remainder of the week there visiting.

SIERRA CITY MINING IS GOING AHEAD FINE WAY

With two payments already made on the bond and lease held on the Monarch mine at Sierra City and with possibilities of a large merger of properties in that field, things in minng are lookng brght in that section. The Minarch is being operated by Dutton and Thompson under the corporate name of the Monarch Al-Conda Mining Company of Los Angeles.

E. L. Blanton and associates who have taken over the Bigelow property are running the mill two shifts. The former method of trucking the ore from the tunnel to the mill has been obviated by the running of a raise to connect with the mill site.

There are 15 men at work at the 1001 and the Gold Point, Cleveland Primrose and Young America are all working while the various placer and hydraulic properties are preparing to get under way as soon as the water is available.

ELKS CELEBRATE 29TH ANNIVERSARY OF LODGE

With a number of antlered brethern from Quincy and Downieville in attendance the initiatory ceremonies and the reception to Deputy Grand Exalted Ruler P. G. Scadden by Nevada City Elks Lodge on Friday night were enjoyed by a large concourse. The work was conferred on two candidates in a most acceptable manner by Exalted Ruler T. W. Richards and his staff of officers.

Mr. Scadden was given a hearty welcome to his home lodge. Also speaking were George H. Calanan and Charles Kerr from Quincy. J. F. Colley gave an interesting history of the lodge since its inception 29 years ago.

The crowning touch to the two day festivities came Saturday evening when the banquet and lodge halls were cleared for dancing and a big throng of members and their families were present. An orchestra from Sacramento dispensed excellent music. Following the hour of 11, the company adjourned to the Masonic Temple where a toothsome banquet had been prepared by the ladies. A hostes presided at each table. It was a gala occasion and Exalted Ruler T. W. Richards as toastmaster proved himself an adept at postprandial.

COURT HOUSE RECORDS

The following mining locations have been put on record:—

La Salle Lode mining claim by Fred De Wein in the Washington Mining District, in SE¼, Sec. 2 and NE¼, Sec. 11, T17N, R10E.

La Salle Extension Lode quartz by Fred De Wein in Washington Mining District, SE¼, Sec. 2, T17N, R10E.

Army Discharge

Wesley Cooper.

Right of Way

Elizabeth Mills to Pacific T. and T. Co.—NW¼, Sec. 5, T17N, R17E.

Patent

U. S. A. to Thomas Thompson.

Notice of Action

Theo. A. Kohler vs. Frank V. Thomas et al.

otice non Responsibility

C. C. Mitchell.

Steve Woods of Alleghany was in Nevada City Thursday.

Howard Penrose is home from Truckee, where he spent the summer in the Forest Service.

E. Dotherow, F. P. Heinz and Steve Demeria of Sloat attened Elks Lodge in Nevada City Friday evening.

Mr. and Mrs. H. A. Curnow and party of friends attended the Sacramento-San Francisco baseball game which was played in Sacramento Friday.

R. L. P. Bigelow, Dr. C. W Chapman and Miles Coughlan motored to Marysville Thursday evening and attended a meeting of the past Presidents Association of the Native Sons.

Mr. and Mrs. Clarence Martz and children, who are at the Oakvale mine at Steep Hollow, spent a few days here visiting.

Mr. and Mrs. Will Fouyer spent last Sunday in Sacramento. He enjoyed a ride in one of the new 5 motored Ford passenger planes.

OPTION IS TAKEN FOR TURPENTINE INDUSTRY HERE

With an option taken the past week on property in the south east part of Nevada City bordering on the railroad tracks, work is expected shortly to be under way in installing the first unit of the new turpentine distilling industry in this community which is expected to employ in the neighborhood of 200 men throughout the territory covered by the operations.

F. C. Ernst, who has been doing the preliminary work in singing up the necessary acreage to make the industry possible is more than pleased with the prospects for a large plant. The timber owners have shown a great deal of interest in the prospective operations and a large acreage has been signed up.

A great deal of demonstrating work has been carried on in selected tracts and the timber owners given an opportunity to see how the tree apping is carried on and how by this method there is no probable damage to the tree in any way.

Turpentine is the main product from the gum but 140 by-products can be manufactured also. The digger pine which has been considered somewhat worthless aside from stove wood has proven out here to have more and better gum than the yellow pine. By the plan of operation the timber owners will have nothing to do but draw their pay checks as the company tends to all details of tapping, collecting the gum and hauling it to the factory. All cups, gutters and tapping tools are also furnished by the company.

Local headquarters have been maintained in the former George B. Finnegan offices on Pine street.

WILL SHARP KILLS BIG MOUNTAIN LION SUNDAY

While out hunting near Omega yesterday, Will A. Sharp had the good fortune to bring down a monster mountain lion, one of the first killed in this county in some years. The lion, a female, was seen walking around by Mr. Sharp, who with a wel dirlected shot from his trusty fowling piece, dispatched the critter. The carcass was brought to town and displayed at Costello & Jepsons where it attracted a great deal of attention. There is a good bounty paid.

MISS BETH DOWNEY WEDS MR. RUSSELL WILSON

The nuptials of Miss Beth Downey and Mr. Russell Wilson were celebrated Thursday at high noon in Trinity Episcopal church, the Rev. Charles W. Pearson officiating.

The bride who was charmingly gowned in French beige and wore a corsage of Cecil Breuner roses and violets was given in marriage by her father, Mr. George W. Downey and Mr. Rolfe Wiylson was best man. Miss Margaret Peard played Lohengrin's wedding march. Following the ceremony, a wedding feast was served at the Downey home.

The bride who is one of Nevada City's charming young women is the youngest daughter of Mr. and Mrs. George W. Downey and has a wide circle of friends who will wish her every happiness. The groom s employed by one of the oil companies and the happy couple wil make their home in Grass Valey.

GOVERNOR YOUNG WILL APPOINT SUPERVISOR

Governor C. C. Young will have the task of naming a successor to the late David S. Rowe as supervisor to serve until 1930. It is not considered likely that the appointment will be made until the governor has had an opportunity to canvass the field thoroughly as a number of candidates are being mentioned for the post.

Mrs. H. Anderson and child returned totheir home at Lower Lake after a visit here with her parents, Mr. and Mrs. R. L. P. Bigelow, for some time.

COZY CORNER CHAT

THE FOLLOWING taken from the Placerville Republican of the last week's shows only too clearly how much our talented young congressman is appreciated in other sections of his far flung district:

Harry L. Englebright, making a brief address before the Lions' Club here yesterday, without endeovoring in even the slightest degree to stress his accomplishments, nevertheless put before his hearers a composite, definite picture of what he has done in the first term as United States Congressman from this district. And those accomplishments do two things: justify the confidence and the support which placed him in his office; and indicate a record which placed him in his office, and indicate a record which points to an ultimate successful career as a public servant.

Appropriantions totalling almost twenty-two million dollars were secur ed for the second congressional district, represented by Englebright. This money comes from practically every federal fund for almost every conceivable purpose, including government road projects, forest service trail improvement and conservation funds; national park development, and a score of other minor projects. In other words, this amazingly energetic young man succeeded in getting a congressional finger in every pie that was cut—and a generous slice of federal melon for his district.

Viewed in the light of comparison, an idea of what this record means may be gleaned in the statistics which show that this total of appropriation for our district is more than double the total of all appropriations for this district for the last ten years. El Dorado county alone received $75,000 for highway work, while an additional $80,000 was allocated for road improvement around Lake Tahoe, also advantageous and directly beneficial to this county.

Englebright distinctly "belongs" in his place and very positively "fits" the shoes to which he has fallen heir. This is proven by the manner in which he took a leading place among other California Congressmen, although he is the youngest, in years as well as in service, from this state. After launching and leading his California congressional associates in a fight for recognition in highway appropriations, resulting in securing one million and a half dollars for California, out of a total of seven and a half millions for the nation (20 per cent) he was not satisfied until he had assured his own district approximately 20 per cent of the total appropriation for the state. And this in the face of the greatest scramble ever witnessed for high way funds in this state.

Still he is far from satisfied with the way things are going. Forest conservation and mining are dear to his heart. He has made a study of the public domain problem which places him high in the ranks of authorities in the lower house on the subject. With a group og colleagues which he has organized, mostly representatives of other western states, he is proparing a red-hot conservation and tax relief bill for introduction at the forthcoming session. His pleas for relief of western states which are now carrying the entire burden of forest conservation by reason of their loss of taxes is gradually becoming important to others in Congress. There is even hope that relief may be secured.

Young, enthusiastic, aggressive and tireless in the interests of his district, Englebright is destined to go far in public service. Believing that all things good come to he who prepares to receive them and works for them, he constantly keeps his weather eye open for an opportunity to learn more about the things his constituents are interested in. Having lived in his district all his life, hs personal knowledge of needs and demands is a valuable asset. Of clear perspective, magnetic personality and outspoken opinions, he has the happy faculty of making and holding fast friends—among colleagues as well as constituents. His personal attention to requests of his district, and immediate attention to matters called to his attention has already occasioned favorable comment and he is genuinely pleased to have constituents make demands on his time. El Dorado county in common with other parts of the second congressional district is exceedingly fortunate in being represented by a man like this. The lamentable but inevitable fact, however, is that we shall eventually lose him, when he moves up to the bigger, higher office for which he is qualified and to which he is certain to be called by public demand.

PERSONAL MENTION

Mrs. Alice Hitchens is home from a motor trip to Portland, Oregon. The party included Mr. and Mrs. F. C. Beedle and Mrs. Gerald Davis of Reno, Nevada, and Mrs. Hitchins.

Ben F. Ballard of Santa Rosa passed thru here early in the week on his way to the Brush Creek mine in which he is interested.

Mr. and Mrs. Carl Ivey of Chico spent the week-end here visiting Mrs. Nellie Veale and Mrs. John Langman.

Miss Mary McGown is home from Grass Valley. She was quite ill with flu while at the home of Mr. and Mrs. F. M. Faulk.

Mr. and Mrs. George W. Downey have as a guest their daughter, Mrs. W. E Beatty of Fresno.

Miss Mary Schmidt, Mills College student, spent last week-end here with her parents, Mr. and Mrs. Ed Schmidt.

W. E. Johnson, formerly of this place is here on a visit.

W. H. Landrigan left Tuesday for Sacramento where he will remain till after the funeral of his sister-in law, Mrs. Will A. Davis.
town.

Sheriff George R. Carter was an official visitor in Stockton during the week.

The many friends of Will Reynolds will be pleased to learn that he is improving. His daughter, Mrs. William Menhennett of Mesa, Arizona is here visiting him.

Mr. and Mrs. L. B. Gregory of LakeSpaulding visited here Friday.

Miss Hattie Huson is home from a visit with relatives at Taft.

Visitors here Sunday were Mrs. Niles P. Searls, Misses Evelyn Kendall and Theresa Sharp, and Frederick A. Sherwood, who are interested in Girls' Camp Fire activities.

William Litchenberger, superintendent of Brush Creek mine, was here Tuesday attending to business matters.

A party composed of Mr. and Mrs. W. M. Gracey, Mr. and Mrs. E. P. Gleason, Mr. and Mrs. John W. Darke, Mrs. Mamie Parsons, Miss Mary Hoskin and Dr. Ward Johnson visited in Sacramento Saturday afternoon and evening. The men attended a meeting of Scottish Rite Masons.

Mrs. M. Grimes and family have as visitors, Miss Nettie E. Hopley of Sacramento, and Mrs. G. M. Flint of Oakland.

Mr. and Mrs. E. T. Leiter of Oakland are visiting relatives here. He has the contract for rebuilding the Alpha store and inspected the work last week.

Miss May Cress, trained nurse, left Tuesday for Berkeley to spend a short vacation there.

Wilson F. Utter and J. Fred Zeller of Riverside, who have mining interest in our county, spent a short time here last week.

Francis Hogan is home from a short visit in San Francisco.

Roy Kimball, who has mining interests in the Graniteville section, was here Friday.

Misses Dearestine Daniels and Evelyn O'Connor, who are teaching in Roseville grammar schools, spent last week-end here with their families.

Miss Nan O'Neill came up Friday from Oakland and had as her guest, Miss Dorothy Davis, who will visit her here for a time.

Mrs. John P. William and daughter, Anna, are in Idaho visiting relatives.

Leonard Luther of North Bloomfield spent Monday in our city.

Mrs. H. D. Shearer is visiting relatives and friends in Sacramento and San Francisco.

George Faegans of Alleghany passed through here Friday enroute to San Francisco, where he will attend a session of Grand Lodge of Masons.

Miss Alice Langman is home from a short vacation in San Francisco.

Mr. and Mrs. H. O. Kohler of Washington visited here Monday.

Mr. and Mrs. R. W. Williams and children of Susanville are here visiting his parents, Mr. and Mrs. W. R. Richards. We are pleased to learn that they are thinking of locating here.

Misses Elizabeth Buckner, Junior college student at Sacramento, and Iris Murchie, teacher of Rseville spent last week-end here with their parents.

Mr. and Mrs. C. R. Bennetts of Big Tunnel spent Monday in our city. city.

W. G. Gates, formerly of our city, was a business visitor here last week.

Mr. and Mrs. A. C. Richards visited relatives here last week.

Mrs. Will Fenton, half owner of the Tom and Jerry mine at Quaker Hill, visited Mrs. Jo V. Snyder during the week.

Anton Buck of Orleans Flat is at Wilbur Springs for his health.

Ross F. Taylor, mining engineer of Downieville, attended to business matters in Sacramento this week. He was occompanied home by A. Ribolo, who had been in Sacramento to have an operation upon a mastoid.

Victor E. Buck came up from Buck Bros. ranch near Lincoln and went on to their ranch at Orleans Flat.

Rev. and Mrs. H. H. Buckner returned Tuesday from a motor trip to Forest, Alleghany, and Downieville. He held services in each

Walter Midgley of Lincoln passed thru here Tuesday to the German Bar mine, where he is employed as caretaker.

Misses Beth Downey and Ada Pierce motored to Sacramento Wednesday to do some shopping and attended the show "King of Kings."

MRS. LIZZIE MONROE KILLED IN AUTO ACCIDENT

Mrs. Lizzie Monroe, formerly Miss Lizzie Monroe, obrn on Lost Hill, this city, was killed September 29th in an auto accident in Vanvouver, British Columbia, when an electric train hit their car. Her sister, Mrs. L. Snell and husband were also seriously injured.

Mrs. Monroe's husband died only a few months ago and is buried in Pine Grove cemetery. She is survived by a son, James of Kittitas, Washington, a brother, Charles of Nevada City, two sister, Mrs. Snell of Vancouver and Mrs. Martin Thomas of Utah.

"Parties Draft Platforms." Another thing as meaningless and useless as the warts on cucumbers.

..What a Quarter Means

To Father—Carefare to work and back.

To Mother—Half a peck of potatoes.

To Daughter—A soda.

To Son—A package of cigarettes.

To the Plumber—Thirteen and a quarter minutes.

To John D. Rockfeller—Twenty-five cents.—Brooklyn Wasp.

Much fine scenery has been wiped out by the march of civilization, but anyway we have the hot dog stands left.

Formerly when the boys returned with battered faces, they had probably been fighting, but when they similarly appear now, they have probably been trying to remove some tree or telephone pole with their automobiles.

Sophomore Reporter.. Buddy Roberts
Freshman Reporter.... Betty Bettles

EDITORIAL

Shall our student body continue to "rough it" in the study hall beltween classes and at morning and noon? This is the most serious prblem confronting us at present, and has been a big problem for several years. Let's show some action on the subject.

Miss Tayolr says, "The senior class of 1928 cannot leave a better memorial of itself to the Nevada City high school than a competent system of senior control, that will be carried on by the other classles when they become seniors. Such a system would do more good for the school than al the tennis courts or money given it."

In a former issue of our paper a great deal was said about senior control, but there is no control system operating yet. On Tuesday we acted very deporlably and there was no Control Committee to take charge.

We need leaders and suggestions. Someone must take charge to get a system started. Those having suggestions should let the rest of us know about them. It has been proposed that a student body meeting be called and the students "hash" this subject out and plan some definite action.

LET'S GO! We owe it to our teachers and ourselves to do something about this.

STUDENT BODY DUES

The junior, sophomore and freshmen classes of the Nevada City high school can not hold meetings until they pay their Student Body dues, which they seem unwilling to do.

The freshmen cannot plan their party which delays one of our good times. The juniors had difficulty getting their members together in a "gathering" to choose class rings. Everything could be made easier if all would pay.

Every sort of an inducement has been offered and if they don't wake up and pay we shall have to resort to the "tag" system. Those who have not paid will look very much out of place among those who are wearing tags for having paid.

ORDER PLAN SUGGESTED

Miss Whelan has offered, as a suggestion to enforce student body order, a system used in a Michigan school in which she formerly taught. At the head of this control system is the mayor, who is similar to our student body president. With him in charge the students make the laws, and if they are disobeyed, the offenders are brought before him. If the offense cannot be handled by the mayor, it is then taken to the principal. A chief of police is elected to enforce the laws and he appoints several officers to assist him. So well does this system work in the Michigan school, that the teachers are able to leave to attend other schools to see what methods they are using. They are able to depend on the students. The "police force" takes charge of classes and maintains good order and study conditions.

This is a good suggestion, and has proven satisfactory in one school, why not in ous? If any of the other teachers know of other systems that have been used satisfactorily in other schools, we should like to hear them.

TWINS LEAVE

Calvin Fisher returned here Tuesday with his brother, Caswell. Calvin is now going to Commerce high in San Francisco. Caswell has decided to return with "Cal" to San Francisco where they will go to school together.

Nevada City high regrets the loss of these two boys, and hopes that they will return soon.

LOST

At Student Body Dance
My Balance .....Deynes Foley
My Shoe..... Bernice Eden

Gladys: "What keeps the moon from falling?"
Carl: "It must be the beams."

YE CORNER OF YE RISQUE

She leaned over closer to me. Her body seemed to become limp as she let one knee slip off the other. I watched her head. It was nodding uncertainly and ever so slowly. Her lips were parted. Her long eyelashes dropped and her pretty blue eyes looked out drunkeniy from underneath her half closed eyelids. (OH! BABY) She closed her tiny hand as if staving off a terrible temptation. Then, as if it were beyond her power, she emitted a little sigh. Her hand relaxed and her head drooped. I bent down and looked up at her face. Her eyes were entirely shut.

It was the second time that week Daughter had fallen asleep in history.

That is a flying start to foolishness. Now for some real logic.

In the editorial this week it is suggested that the students assemble and "hash out" the subject of student control. In my estimation this is a most excellent plan. But, as this is the problem of the students themselves, I think they should 'hash it out' without assistance from the faculty or even the presence of any faculty member at the meeting.

Notice

This column will appear weekly with some sense and some nonsense.

DEBATING TEAMS CHOSEN

Students have been chosen to represent N. C. H. S. in the "Central California Public Speaking League."

The members of the affirmative team are Helen Chapman and Pierson Tuttle with Gertrude Marriott as alternate. The members of the negative team are Alberta Baker and Nancy Jones with George Noyes as alternate. These teams were chosen from nine members who took part in preliminary debates held before the student body.

On November 2 the affirmative team is scheduled to meet Turlock here. The negative will meet Escalon at Escalon. The question to be debated is: Resolved; that the canning peach growers of California should own and operate their own canneries.

GIRLS PICNIC

The Girls' Association held a picnic at four o'clock Friday, October 12, at Memorial Park.

Mr. Griffith kindly let us have the Club House in which the stunts were performed. The freshmen put on a comedy called "Popping the Question". The sophomores were next on the program. Their play was called "Courting Under Difficulties." These were both generously applauded by the students. The juniors were in charge of the singing. One of the members of the senior class read a very exciting and wierd ghost story.

After partaking of the eats, we were all ready to go home. Even though the weather was cold, an enjoyable time was had by all.

JOIN THE ROOTERS

The yell leaders, Murchie, Sandow, and Bernard are trying to organize a rooting section. They want the members of this rooting section to be at every game to show the other schools that Nevada high has a wide awake Student Association.

All the students, who are not going out for athletics, should help the ones who are going out by joining the rooting section. In this way everyone is not only backing the teams, but is also upholding the good name of N. C. H. S.

WRITTEN BY A SENIOR

The English II and IV classes find that producing Shakespeare's plays is mere play. In the English II classes scenes from "Midsummer Night's Dream" were produced with wierd costumes and settings. "Macbeth" given by the English IV class was a master production, showing true dramatic ability. The great tragedy of the scenes caused the audience to gasp.

Something new and different has been introduced into the high school. The world history classes have the most interesting and, laziest (huh?) map books to play, with that could be obtained in the state of California. They cost the large sum of fifty cents each.

ORGANIZE TEAMS

Under the guidance of Miss Thelma Leschinsky, girls' physical education instructor, teams have been organized by the girls. The fourth period class has two teams, the "Flying Wings" which is composed of upperclassmen and the "Grinning Gorillas" composed of freshmen. The seventh period class team is known as the "Dashing Devils".

Each of these teams is divided into two divisions, the purple and gold. The captains of these divisions are:

Flying Wings
Purple .....Geraldine Larsen
Gold .....Lillie Sowden
Grinning Gorillas
Purple .....Margaret White
Gold .....Eleanor Schrieber
Dashing Devils
Purple .....Edith Casci
Gold .....Alberta Baker

These teams will compete in baseball, basketball, and other games.

GLOOOOM CHASERS

N. C. H. S. is split on the coming election. The following conversation is a good example of the usual "LINE":

Nancy: What is the best letter in the aphabet?

Daughter: I'll bite. What is it?

Nancy: 'H'. The start of Hoover and the end of Smith.

(It might be added that a general battle followed.)

Lost: Fox terrier; rough coat, black on head, side tail.

I guess these new "side tail" perps haven't arrived up here in the Styx yet.

Notice To My Chicken Thief

The car blanket that you stole, along, with the last consignment of poultry from my chicken coop was an all wool blanket. If your foresight had not been blinded with boot-leg liquor you would have taken my ice machine instead, for where you're going a refrigerator plant would be more appropriate than a wool blanket.

OUZY BALDWIN.

TIME LIMITED

Mr. Isensee found it necessary to introduce a new two-minute-to-class system. Two minutes after each class a bell is rung, and each student must be in his next class by that time or stay out and take a zero for that period. There has been a rush for classes since the bell system has been used. This system was necessary to keep the students from taking their time between classes.

He also requires the students to be in the study hall at nine o'clock and one o'clock, if they expect to enter to study. After these times they are barred from entering until school begins

AMONG OTHER THINGS

Well, the first reports are over, and we, are ready to start on our nine month's grind. Did I say READY? I meant "OUGHT to be" of course.

The yearly warning is being broadcast. This, with more or less variations according to teacher, time, and student, tends to give the impression that if the slightest excuse can be found to warrant the measure, any student, especially any senior implicated, will not be allowed to pass. In fact the general impression given is that the faculty's watch word is, "THEY SHALL NOT PASS."

The political campaign now on gave a feeble echo in the study hall Tuesday. The Smith followers were generous enough to put the picture of Robinson on the wall along with Smith's, while the rabid republicans could tolerate only Hoover's picture. It did not make much difference, however, for neither picture remained in place long enough for more than a very short glance at their well known features.

moment gedyraod'

WHO WON

Last Monday noon two boys had a disagreement which caused one of the boys to carry a bluish, lavender circle, about his eye for a week. The other boy's nose is still a trifle red from a right hook that brought forth a crimson fluid. The boys are now the best of friends. We hope they will remain so.

Byron in economics: "Now, supposin' a man had an extra house and extry car. If he rented his extry house and extry car, he wou'd have more money to buy more extry houses and extry cars."

UNCLE CHARLIE'S COLUMN

Dear Uncle Charlie:

I am desperately in love with a tall, exceedingly thin girl. But, Uncle Charlie, don't be misled by the fact that she is skinny. Her personality and good looks make up this deficiency. Now, I am a little, short, funny looking fellow and I would like to know what chance I have of winning this maiden.

Milton Masters.

Dear Milton:

Haven't you heard that unlikes attract? Well, it's true and it gives you every chance in the world.

And don't be bashful at her slenderness. I once loved a girl that was so thin, that if it weren't for her Adam's apple she wouldn't have had any shape. She was so straight up and down that people caled her six o'clock, and one day when she swalowed some red ink, everybody thought she was a thermometer.

So you see, Mitonl, you have a fine chance with your dream girl. And if you have any rivals, buy a gun and bump them off—show her that she belongs to you alone.

Yours to the last bullet,
Uncle Charlie.

Dear Uncle Charlie:

I really like a nice boy, but sometimes he makes me tired. What shall I do?

Marie Odgers.

Dear Marie:

Stop running after him.

Uncle Charlie.

Dear Uncle Charlie:

If you are so smart as you say, suppose you tell me how many hairs there are on a monkey's face.

Ray.

Dear Ray:

Miss Taylor's father of Grass Valley is suffering from a paralytic stroke. The students of the Nevada City high school hope he will recover soon.

Alberta: "How can I keep my feet from falling asleep?"
Nancy: "Don't let them turn in."

JOKES

Milton Masters: "What's the charge, officer?"

Joe Blake: "Driving while infatuated."

THIS LETTER
is a better advertisement than any we could write

Oklahoma City, Oklahoma
August 3, 1928.

United Security Bank and Trust Company
San Francisco, California.

Gentlemen:

Your letter with check for $2108.52 and pass book enclosed received today and please accept my most heartfelt thanks for your kindness and promptness in settling this account for me. After all there is nothing like doing business with the right people and the promises in your little booklet I find are not exagerated in any particular. I shall take great pleasure in recommending your Company to any of my friends who may be going to your city at any time.

I must say that California has some very nice laws when it comes to dealing with sisters and inheritance taxes, even the 3% seemed very little to pay if it had been necessary.

I hope to have the opportunity of visiting your city before long and shall give myself the pleasure of calling and thanking you in person for your kindness and the courtesy of your offer to be of further service to me.

Very sincerely yours,
Hattie E. Thomlinson
Hattie E. Thomlinson.

This letter proves the value of a Trust Fund Savings Account. It shows how this special type of account operates to the great advantage of heirs.

Yet it also has all the advantages of an ordinary savings account and this bank makes no charge for its services.

Now is the time to start a Trust Fund Savings Account here. Why not come in today and talk it over with any of our executives?

John and Albert Jaynes and Esmond Humphrey motored to North San Juan Saturday night to attend the dance there.

Mr. and Mrs. Laurel Ruff and daughters J,une and Lorraine, spent the week end here from Yuba City.

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming.

The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. BB, Monticello, Illinois.

Makes Life Sweeter

Next time a coated tongue, fetid breath, or acrid skin gives evidence of sour stomach—try Phillips Milk of Magnesia!

Get acquainted with this perfect antiacid that helps the system keep sound and sweet. That every stomach needs at times. Take it whenever a hearty meal brings any discomfort.

Phillips Milk of Magnesia has won medical endorsement. And convinced millions of men and women they didn't have "indigestion." Don't diet, and don't suffer; just remember Phillips. Pleasant to take, and always effective.

The name Phillips is important; it identifies the genuine product. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

PHILLIPS Milk of Magnesia

KEEP YOUR PAPERS SAFE FROM FIRE AND PRYING EYES

In these days of business when nearly everyone at some time in their life accumulates some security, however small, it should be kept in a safe place. Not only away from someone who might appropriate it to their own use, but away from the curiosity of prying eyes and safe from interference on the part of people who would know your business.

The rental of a safe deposit box in our steel vaults is but tweny five cents a month, three dollars for an entire year. The question is not whether you can afford to have a safe deposit box—it is whether you can afford to be without one.

There are a few boxes, just a few, vacant. When these are gone it may be too late for you. Come in today and place your name on our list. Then your securities and valuables wil be absolutely safe.

THE NUGGET PAGE OF MINING NEWS

TRINITY COUNTY

Seymour Gold Placer Mines Company has bought the Pat Holland claims on South Fork of Coffee creek, near Carrville. Vancouver, British Columbia mining men are interested. Work will start at once on a large scale. I. M. Zimmerman of Los Angeles is secretary of the company.

The McNamara Mining and Milling Company and MsNamara-Crescent Company expect to start work within two weeks. T. G. Joseph is president.

SHASTA COUNTY

The Niagara mine west of French Gulch has a recent strike 1000 feet below surface that is creating great interest. The ore is said to go $200 a ton.

Mt. Shasta Silica Company has 46 claims of 160 acres each. Steam shovels are used in operating. Will start as freight rates are arranged.

Mt. Shasts Coal Company is making good progress. Aluminum is also found in some of the clay deposits. Lincoln potteries handle the clay.

YOLO COUNTY

The North Star Tunnel and Development Company have taken a lease and option on the Reed quicksilver mine. M. Grotoyohn is president. Myra Mines Companies have a working agreement.

MARIPOSA COUNTY

The work at the Feliciana mine of late has been drifting and stoping of ore on the 200 foot level. 16 men are employed. The mill has a capacity of 40 tons daily and is to start at once. Ore is said to average $25. per ton.

The Fremont Grant Company will locate at Mt. Bullion with offices at Mariposa. It is a New York Company and the Grant property is a large one,formerly the Mariposa Commercial and Mining Company. They plan to start in a small way this winter and gradually increase operations. They plan to lease and sell grazing and agricultural lands on the property. D. E. Woodbridge is directing engineer.

INYO COUNTY

The Engineers Exploration Company is planning erection of a 100 ton mill for the Ophir mine. $200,000 of ore has been shipped to outside smelters in previous years. It is said to average $34. per ton of lead-zinc content.

A site in Indian Valley west of Downieville has been chosen as the site for a fish rearing pond for the state fish and game commission, by A. E. Culver representing that body. This revives a project carried on several years ago under private auspices as the result of work by E. L. Cleveland now of Sacramento.

A party of typing students from the Grass Valley high school attended the international typewriting contest held at Sacramento last week.

Seed from Silver tipped fir trees in the Truckee section is being gathered by C. F. McGlashan and shipped to the Felix Gillett Nursery.

Two young children, a son and a daughter, of Mr. and Mrs. Clarence Hawkins of Deer Creek tried putting cartridges in a stove with the result that the exploding shells struck them and they had to be taken to the hospital.

B. F. Sly, San Francisco attorney, and Miss Lulu Condon were business visitors here Friday.

The American people are urged to rise with the lark, but frequently they haven't got to bed when the lark rises.

SIERRA COUNTY

Gray Eagle mine near Downieville wil start in near future.

One Thousand and One Placer MinesMines Incorporated near Sierra City are prepared to do gravel mining. Oregon and Oakland men interested. Thomas Proctor of Sierra City is secretary-treasurer.

SISKIYOU COUNTY

Grant and oore of Los Angeles have bonded the A. S. Hathaway mine near Callahan.. A 100 ton mill will be installed and in operation in 30 days.

Plans are under way to mine chrome ore in the Sousa ranch near Yreka. It runs 45 per cent chromite with market in San Francisco.

20 tons of ore are being treated daily in the new revolving hammer stamp mill on the Lucky Mae property near Scotts Bar. A 175 foot drift is on a ledge averaging five and a half feet. C. E. Humphrey is in charge.

The Big Balck Bear mine, well known gold producer, is making plans to again make a good record. Local and British Columbian interests are developing it. Three new free gold veins have been discovered besides previously known ore reserves.

EL DORADO COUNTY

The outlook is encouraging for the old Silger mine near Greenwood It reopened with 12 men employed. Ore averages $15. a ton. First worked in 1862. In 1923 the company installed $50,000 worth of machinery.

California Development Company has taken over 70 acres near Nigger Flat. 9 men are employed. W. C. Green is owner. Work is under supervision of A. C. Lacy. Southern California capitalists are doing the work.

CALAVERAS COUNTY

The Royal Development Company has worked the Royal mine to a depth of 1080 feet. Ore is said to be running $21 per ton. Herbert White is vice-president.

RIVERSIDE COUNTY

The American Tin Corporation is again trying to develop the Tehescal tin deposit. The mine has produced 240 tons of tin. Enough ore is blocked out to kep the mill running two years.

Call money has taken a hop up. This was caused by trying to call it back.

It's a wise worm that stays under cover and deprives the early bird f his breakfast.

Somebody is always getting in the way of the man who is in the pursuit of happiness.

FROM OUR READERS

JIM STEWART SAYS:

Once again I am appealing to the Hydraulic Miners of the Ninth Assembly district. We gave Ed Gaylord a majority of the votes in this district, but on account of the present election laws being like the rules in a game of chess, he was counted out and not allowed to appear on the November ballot, notwithstanding the fact that he had a majority of all the votes cast and mon the Democratic nomination.

But rally again, we have in J. L. Seawell a candidate that we can support without reservation. Jerry Seawell was a fireman on the S. P. for a number of years and we have had many conversations regarding the hydraulic miners problems. He is for us 100 per cent, and if we do as well for him, we will have an ally worth while.

As I stated in Gaylord's campaign, all of you whom I have seen, assured me that you would aid the hydraulic miners fight. I know that those of you whom I haven't seen are just as loyal. I am asking you to cast your vote for Seawell if you want to help me and help yourselves.

Do not be misled by eleventh hour statements as appeared the morning of election at the primary. And laugh at the pleas for sportsmanship. A good sport that only received a minority vote would have stepped aside for an opponent that received a clean cut majority.

Get off your coats and go to work for the candidate, Jerry Seawell, the miners hope for this district.

There are back seat drivers in canoes and rowboats, too, and what's worse, they try to change seats.—Detroit Free Press.

One reason they don't start another war in Europe is that they are afraid we won't let'em have the money to finish it.

A Tennessee woman, eighty years of age, has never seen an automobile. There have been a lot of people who might have reached eighty if they hadn't.—Columbus Dispatch.

Did you ever stop to think that maybe the other fellow's fautls you see so plainly are only reflections of your own?

Many autoists think warning tended for the locomotive engineer.

Wisdom and honesty are worthless when lying idle.

Some persons tell all they think and add some more, then wonder why they get into trouble.

When the yellow streak begins to work out of some persons they have a fit of the blues.

A feeling of superiority is about all the satisfaction some persons get out of being good.

It seems rank injustice to a bald headed man when he has to pay as much for a hair cut as a poet.

When a man has occasion to defend his actions he admits his weakness.

WORK TO START SOON ON SIERRA HIGHWAY

R. L. P. Bigelow, forest supervisor, states that clearing of the right of way for the Sierra-Downieville highway is to start in a short time.

Day labor will be employed, with crews being sent out from Downieville and Sierra City. Foremen will be in charge of the crews of men.

Some folks have the idea that the way to settle the liquor question is to permit each state to decide how much liquor is intoxicating. On this theory New York would have the worst of it as it's easier to get dizzy on Broadway than any place in the world.

The fellow who complains that his privileges are being taken away from him and his personal liberty destroyed should remember that a hundred and fifty years ago it was against the law to go joy riding on the Sabbath.

After all it must be remembered that the soverign voter is the only fellow who can tie the can to candidate.

A good rule for the autoists is to drive as if their own family were in the other car.—Pathfinder.

LEGAL NOTICE

NOTICE

CONTROLLER'S DEPARTMENT
STATE OF CALIFORNIA.

To the Tax Collector of the County of Nevada, State of California:

WHEREAS, a deed or deeds conveying to the people of the State of California the title to the property hereinafter described having heretofore been filed in the Controller's office of the State of California;

AND WHEREAS, said deed or deeds recite the fact that said property hereinafter described was sold to the people of the State of California for the non-payment of State and county taxes;

AND WHEREAS, five years have elapsed since the date of said sale, and no redemption, according to law, has been made of said property, or any part thereof;

NOW, THEREFORE, in pursuance of the law in such case made and provided, I, RAY L. RILEY, Controller of the State of California, by virtue of the authority in me vested by the laws of this State, do by these presents authorize, empower, and direct you, the said Tax Collector, to sell at public auction, in separate lots or parcels, the property hereinafter described.

The property above referred to, and hereby authorized to be sold, is situate, lying and being in the County of Nevada, State of California, bounded and particularly described as follows, to wit:

Property sold to the State June 29th, 1920 for the delinquent taxes of 1919:—

In Nevada City, Lot 6, Block 63. Deed No. 1.

No bid shall be received or accepted at such sale for less than the amount of all taxes levied upon such property, and all costs and penalties for every year delinquent as shown by the delinquent rolls for said years and also all tax liens up to the date of the execution of the deed to the State, together with interest at seven per cent per annum and also the graduate redemption penalties required under Section 3817 of Political Code computed upon the aggregate amount of the taxes for each of said years from the first day of July following delinquency to the date of the sale hereunder, and all expenses accrued to the date of the sale under this authorization.

Said sale shall be conducted in all respects as provided for by law governing such sales.

Given under my hand and seal of office, at Sacramento, this 7th day of September, A. D., 1928.

(SEAL) RAY L. RILEY,
Controller
By C. E. Cooper, Deputy.

Sale of Real Estate by Authorization of Controller.

Under Section 3897 of the Political Code.

Date of Sale—October 25th, 1928

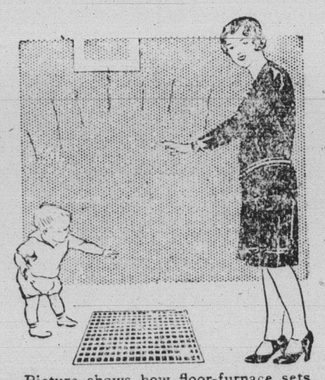
Good heating and fuel economy

come only with heating equipment carefully planned and installed



Picture shows how floor-furnace sets in floor. Heat is controlled by handy valve.

You know how homes differ in their size and the type of building materials used. There is 10% less heat loss through plaster and board walls as through brick walls. And there is 25% less heat loss through insulated walls. These are some of the facts our staff considers before recommending a heating system. For after all, a furnace must keep your home warm no matter how your home is built.

Only trained engineers can weigh such facts and fit the proper heating equipment to each home.

There is no obligation if you have one of our men look over your home. The facts he finds will be taken back for careful consideration by our staff. Then you'll know the recommendations they make will be good. As we will always be in business we can only afford to recommend good gas heating equipment to our customers. And that is one reason why all our recommendations are carefully made. Another reason is, this company knows by years of carefully kept records, that good heating and fuel economy come only with heating equipment carefully planned and installed.

A postcard or phone call will bring a heating expert to your home.

MRS. D. A. MUNRO KILLED

Mrs. Munro of Vaucouver, British Columbia, was instantly killed September 30th when the automobile in which she was riding was struck by a street car. Mrs. Munro was formerly Elizabeth Munro of Nevada City, being born here as also here sister, Mrs. L. E. Snell nee Emily May Munro, who was also in the accident. Mrs. Munro had been at the Snell home for dinner and was returning home when the accident occurred.

According to the police report, the automobile, driven by Mr. Snell was proceeding north on Manitoba street. It entered the intersection just behind an eastbound street car, when it was struck by a street car proceeding west.

The impact was terrific, the automobile being practically demolished, and the front of the street car wrecked. Scattering wreckage, the street car travelled a considerable distance before it was brought to a stop.

Passegers and members of the street car crew, who ran to assist those in the automobile, found Mrs. Munro lying dead beside a door from the automobile in a vacant lot sixty-five feet from the point of the impact.

Mrs. Harrell, a member of the party, was found thirty-seven feet from the wrecked car and Mr. and Mrs .Snell were found in it.

Amublances were called and the injured removed to the General Hospital. Mr. Snell appeared to be the least injured and was in posession of his faculties until the hospital was reached. There he became unconscious and it was discovered that his skull was fractured.

Mrs. Munro's funeral and cremation took place on October 4th and the ashes will be interred in the family plot in Nevada City.

LEGAL NOTICE

NOTICE OF MEETING

Notice is hereby given that on Saturday, the 10th day of November, 1928, at 2 p. m., the Newtown Mining Company, a corporation, will hold a stockholder's meeting at the law offices of W. E. Wright, Union Building, Nevada City, California, which said meeting will be called for the purpose of electing directors of said corporation and the transaction of any and all business which may be necessary and properly brought before the said meeting.

Dated this 11th day of October, 1928.

R. O. Starrett.

WHERE YOUR MONEY GOES

When you invest your money or deposit it, you naturally are somewhat interested as to where it is going to go to what use it is to be put. You would not be a good investor if you did not look into some of these things.

When you deposit money with the Nevada County Building and Loan Association, and receive interest on the same at the rate of 6 per cent per annum, you are also investing your money toward building up your community. Your money is used to assist in financing the building of new homes in this community, a most worthy object if you please.

It beautifies your town, it makes possible the coming of new residents to this community, it puts new and more business into your stores, it puts many people to work. In addition to earning 6 per cent, your dollars are thus directly helping civic improvement in a definite, tangible manner.
